

The Story of The Land

Part 1: Go to your back yard or your front yard and look around for treasures that a human didn't put there:

- What do you see?
- What grabs your attention?
- Go on a hunt for leaves, rocks, feathers, flowers, and anything else that you can find!
- How do you think they got in your yard?!

Part 2: Grab a sheet of paper and crayons/pencil/ colored pencils. Draw a picture or a map of what you think your backyard looked like 100 years ago.

- How many trees?
- What kind of animals?
- What kind of flowers?
- Would there be a river or a lake?
- Let your imagination run free! Whatever you think might have been there!!
